AUTO-LIFT BASKET

The auto-lift basket feature pulls the product from the oil when the cook cycle is complete.

ELECTRIC OPERATION

Energy efficiency and easy installation are a perfect pairing for your foodservice operation.

TOUCHSCREEN CONTROLS

Intuitive touchscreen controls feature the Training Central™.

BUILT-IN FILTRATION

Filtration ensures consistent-tasting food and longer oil life.

Built-In Training

This extra-large, electric auto-lift fryer is designed for simple operation, long life, and high product volume. Open-vat fryers are perfect for producing extra-crispy exteriors and tender interiors on a variety of fried foods. Combine this fryer with a BKI hot case, and your food will be hot and crispy for hours!

The new touchscreen controls are easy to use and feature the BKI® Training Central™, the first of its kind in the industry. In minutes, new employees will be managing virtually every operation—programming, cooking, cleaning, filtering, boiling out, and more—simply by following intuitive, step-by-step screen instructions that provide instant feedback. Training Central reduces time spent on employee training and retraining to save you money.

Heating elements are completely submerged in oil inside the vat to maximize efficiency and speed recovery times. The auto-lift basket ensures that food is removed from the oil at the precise moment it is completely cooked. The auto-lift feature also keeps employees away from hot, splattering oil.

A cold zone in the vat collects breading fall-off to keep oil fresh, while the built-in filtration system extends oil life to save you money and produce consistent results. The patented quick-disconnect allows for easy removal of the vat, so filtering oil is easy and safe.

Choose a BLF-TC series auto-lift fryer, and you'll save money—and serve delicious food—every single time!

FEATURES AT A GLANCE

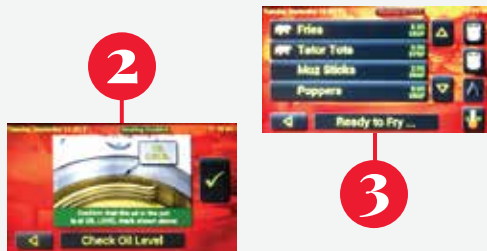

- 7" LCD touchscreen controls with Training Central™
- USB for uploading recipes
- Heavy-duty, aluminum oil vat lid with rolled edges
- Electric operation
- 68,000 BTUH
- 24 lb (10.8 kg) product with optional grande basket, 75 lb (34 kg) oil capacity
- Auto-lift basket for precise cooking
- 5" casters for easy mobility
- Stainless steel construction
- Built-in filtration
- Assembled in USA

Save time and money with the BKI® Training Central™.

Training and retraining employees on equipment operation takes up precious time you simply don't have. Our Training Central is built-into our touchscreen controls, so new employees can quickly look up any procedure and follow the easy, step-by-step prompts. The benefits are clear: train less, fry more!
