# Uniform Breaching.

## BT FEATURES AT A GLANCE

- Stainless steel construction
- 4 locking casters
- Sifter drawer with lower receiving pan
- Lug shelf for raw chicken
- Spring-loaded hinged marinade basket
- Hinged shelf that can be mounted left or right

The BKL® BT-24M breaching table is the perfect companion to the full line of fryers. These breaching tables are compact and portable for breaching and preparing product for frying. Our breaching system is designed to produce a consistent product while reducing breaching costs. A spring-loaded hinged marinade basket makes delivering raw product into the breaching lug easy. A hand sifter separates dough balls, promoting consistency in the sifted breaching.

Our breaching tables are Assembled in USA and include all stainless steel construction, a set of four locking casters, sifter drawer with lower receiving pan, and a durable lug for raw chicken. The extension shelf can be mounted on the left or right side of the table.

The LTS landing table is designed to easily transport product from fryers to hot display cases. BKL landing tables include all stainless steel construction, a set of four locking casters, and stainless steel runners for 18" x 26" pans.

By combining the BT-24M breaching table with a BKL deep fryer, our LTS mobile landing table, you'll have a complete solution for your frying program.

## LTS FEATURES AT A GLANCE

- Large (21" W x 27" L x 3" D) landing area
- Platform tray holds multiple product batches
- Six tray slides hold standard 18" x 26" sheet pans for additional product holding
- Detachable landing platform tray and tray slides for easy cleaning
- Four 3" swivel casters, two locking, for high mobility in tight spaces
- Stainless steel construction
